

## HOSING INSTRUCTIONS

**NOTE:** Make sure to route the product hoses from the rear tank to the seed knife on opener.

- The front tank is the fertilizer tank.

**NOTE:** Make sure to route the product hoses from the front tank to the front knife on the opener.

- When routing hoses on machines that are 60ft and wider and are 12" or 14" row spaces, hose for some of the openers on the outer wings.

**NOTE:** On 20 & 40 bushel canola tanks all hosing is 1"

**THE FOLLOWING CHARTS INDICATE HOW MANY RUNS OF 1 ¼" HOSE TO USE DEPENDING ON MACHINE.**

MACHINE SIZE	TOTAL RUNS	1 ¼" HOSE RUNS	1 ¼" HOSE RH WING	1 ¼" HOSE LH WINGS	1" HOSE RUNS
